## Boosting innovation in welding training

This last **WELDONE** e-Newsletter focusses on the 3<sup>rd</sup> and last Learning Activity, held in Slavonski Brod, Croatia (February 2022), as well as the last project meeting and final conference, held in Oeiras, Portugal (April 2022).

### C3 Learning Activity - Slavonski Brod, Croatia - February, 2022

The **third Learning Activity** of WELDONE project, titled "Assessment Methods and Tools", was held in February 2022 in Slavonski Brod, Croatia, hosted by #STRUKA with the support of IOS.

This time, 4 Competence Units from the WELDONE **Training of Trainers (ToT)** Curriculum were addressed:

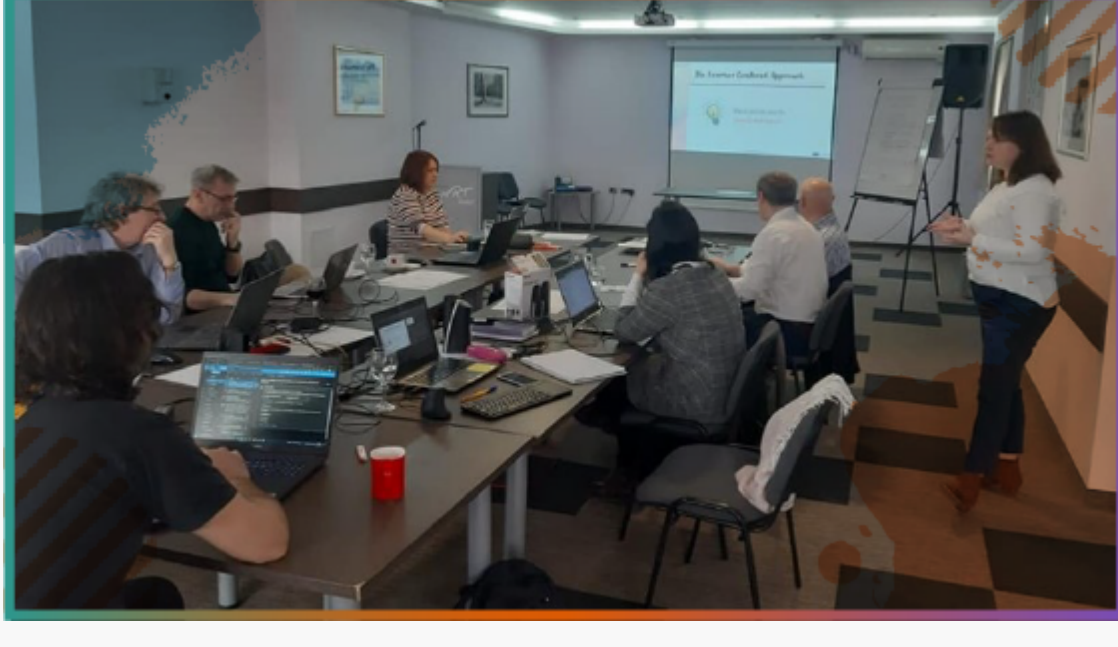

**CU1** - Multiple Intelligences and Learning Styles;

**CU2** - Learner Centred Didactics: Problem Based Learning, Critical Thinking and Collaborative Learning;

**CU4** - Digital Competence and Using Digital Resources;

**CU7** - Entrepreneurship Key Competence.

Four **very dynamic** working days on **project assignments** related to C3 Learning Activity, followed by a last day with the **consortium meeting**, passed quickly! Once again, it was confirmed that face-to-face meetings are the **most productive format** and that they give **quality results** in a shorter period.

### WELDONE Last Transnational Project Meeting, Lisbon, Portugal - April 11th & 12th, 2022

The **final meeting** of the WELDONE project took place in Portugal, on the 11<sup>th</sup> and 12<sup>th</sup> of April 2022, organized and hosted by EWF. These two days were filled with **hard work, discussions, achievements** and lots of fun. **Final reviews** on the last details of Intellectual Output 1 – the WELDONE ToT Curriculum and Quality were performed.

The participants in the meeting felt that the **working atmosphere** and **socialization** were at a **very high level**. They achieved good output results that will surely find their application in practice.

### WELDONE's Final Conference - Lisbon, Portugal - April 12th, 2022

WELDONE project's **Final Conference** was conducted during a special event organized by European Federation for Welding, Joining and Cutting (EFW) in Portugal. The **Conference** had some workshops and the atmosphere around the room was great and dynamic.

The **WELDONE** project is done, but we hope the **WELDONE way** **REMAINS!**
